

## TRASFORMATORI DI ISOLAMENTO PER FOTOVOLTAICO

- Power: 40 to 1000 KVA
- Primary Voltage: 400 V + Neutral  
(different connections and voltage on request)
- Secondary Voltage: 400 V + Neutral
- Rated Frequency: 50 - 60 Hz
- Vectorial Group: Ynyn
- Thermal Class: F
- Insulation Class: F
- Ambient Temperature: 25 - infinity
- Rigidity 'strength between windings and ground: 5000 V
- Rigidity 'strength between windings: 5000 V
- Protection Class: Cl. II
- Guaranteed Performances: = 98 %
- Metal Enclosure IP23 (on request)
- Anti-fraud system (optional)
- PT 100 (optional)
- Temperature Control (optional)
- Impregnated with epoxy resin
- Reference Standard: EN 61558-1-2-3
- On request cast resin
